AN ACT

For extending the Consolidated Act of 1879, respecting duties imposed on promissory notes and bills of exchange to the whole Dominion.

(Assented to May 7th, 1880.)

FOR THE AVOIDANCE OF ALL DOUBT AS TO the application of the Act hereinafter mentioned in and to certain Provinces of Canada: Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

I. The Act passed in the forty-second year of Her Majesty's reign, chaptered seventeen, and intituled "*An Act to amend and consolidate the laws respecting duties imposed on promissory notes and bill of exchange,*" shall extend and apply to and in the Provinces of Manitoba, British Columbia and Prince Edward Island, the North-West Territories and the District of Keewatin, as it does to the Provinces of Quebec, Ontario, Nova Scotia and New Brunswick; but this Act shall not be construed as declaring that the said Act was, or was not, in force in the three Provinces first above mentioned, or the North-West Territories or District of Keewatin, from the time of its passing. je25

TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Cañon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

	$ 10,346 46

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time. JAS. REID, President.

THE UGLY RUMOR.

As the old lady remarked of the ginger schnapps, the *Standard* is very "fillin', but not satisfyin'." From the caption of its article yesterday one would have supposed that positive information was about to be vouchsafed in the matter of the Canadian lands subsidy. The article starts with the assertion that the rumor of the stoppage of the subsidy is an "unmitigated falsehood," but fails to show wherein the rumor is false. For our part, we hope, in the interest of this community, that it will be found to be untrue; but we submit that the organ in no way establishes its untruth. It blusters, resorts to the use of its old stock epithets, and winds up by informing its readers that because the Canadian government are composed of gentlemen they will pay over the subsidy. A few months ago, the organ felicitated the people of this constituency with the remark that because the "Canadian Ministers are gentlemen they will build the island railway." And still the island railway has not been commenced and the organ never by any chance refers to it. That railway is a dead issue in its eyes and in those of the government it supports. While no one will dispute the statement that Sir JOHN MACDONALD and his colleagues are gentlemen our contemporary will bear in mind that they are also statesmen, and that while as gentlemen it would grieve them to do or say a thing that would give another pain, a stern sense of duty might require the act to be performed or the word to be said. We cannot agree with our contemporary that should the rumor prove to be true the Canadian ministers will deserve to be branded as "rascals" and "scoundrels." It is just possible that the Ottawa government may not agree with the Victoria government on a question of public polity and still be 'gentlemen." We can come to no conclusion as to the truth or falsity of the disagreeable rumor. "The tale was told as 'twas told to us," and the ginger-ale article of our contemporary, so far from removing the disagreeable impression from the public mind, tends at least to create the impression that the affairs of the Province with the Dominion are approaching a crisis.

DIVISION OF INSOLVENT ESTATES.

At the last session of the local House there was passed an act to provide for the equal division of the estates of insolvents amongst execution creditors. This was intended to ameliorate the evils entailed by the repeal of the bankruptcy laws. It is a copy of a bill passed by the Ontario legislature to effect the same object. It seems to be a good measure and we remember complimenting the government upon its passage. A clause in the act provides that it is not to come into force until the publication of a proclamation by this government. As the proclamation has not yet made its appearance, a division of assets cannot take place. The creditor who first obtains a judgment is entitled to collect his claim in full, should the assets prove sufficient, and the remainder of the creditors may whistle for their money. We believe that the repeal of the bankruptcy laws was a mistake; and after this government, with a promptitude which reflected credit on them, had passed their substitute they should have given it immediate effect. The legal and business fraternities are puzzled to understand why so necessary a measure, which was introduced by the attorney-general as one of urgency, should be allowed to hang fire.

WANTED—AN ASSIZE COURT.

We are informed that there are several prisoners confined in Victoria gaol who have lain there more than six months awaiting trial. It is now nearly seven months since an Assize Court was convened in this city, and as the cost of maintaining, guarding and clothing the prisoners who, when put on trial, may not be convicted, is no trifle, from motives of economy, if not from consideration for the prisoners themselves, the government should issue the necessary proclamation convening a Court. We can discern no good reason for the occurrence of such long intervals between courts. In fact, were an Assize Court held every three months public business as well as that of private suitors would be greatly advanced. At present there is a deadlock in legal matters, which is due entirely to the refusal of the government to issue the necessary proclamation.

"In the Name of the Prophet--Figs."

TO THE EDITOR OF THE COLONIST:—Sir—Thus the fruit-sellers of Cairo announce their stock in trade, and in a similar manner an educationalist rushes into print with grand rhetorical flourishes in order to espouse the cause of the patient and polite superintendent of education.

"Save me from my friends" is an old adage, and many persons imagine that it would be far better for the superintendent to suffer the question of "fairness, or unfairness, in the granting of certificates" by the late board of education to sink into oblivion than to reiterate his charges through the medium of the learned doctor. The attack, so thinly veiled, on a lady of great experience as a practical teacher is, to say the least of it, very ill-judged, particularly in view of the approaching examination of teachers and the fact that Dr. Tolmie has occupied a place on that very board of education which has been the subject of the superintendent's insinuations. It is strange, also, that a gentleman has been appointed as an examiner who prepared mathematical questions under *the old regime;* and, stranger still, the other appointee has never been engaged in teaching *at all.* It has been, and is, the rule that those whose duty it is to examine teachers shall be themselves highly-certificated, practical teachers, who can judge not only *the mere text-book lore* of a candidate but also his knowledge of the great principles of the branches which he may be required to teach, and furthermore test his capability of imparting this information to his pupils. "Who drives fat oxen should himself be fat." CENSOR.

Dogroo.

TO THE EDITOR OF THE COLONIST:—Sir—Would one of your numerous readers kindly inform me what honor degree the present superintendent of education took at Cambridge and in what year? ENQUIRER.

Ecclesiastical.

Bishop Coxe performed the service of "secularization" or "deconsecration" in Rochester recently, the occasion being the abandonment of old Trinity Church.

Apropos to church entertainments, a Unitarian Conference has pronounced it criminal to turn "a spiritual profession into a caterer to undignified entertainments."

The (Anglican) clergy in the neighbourhood of Frelighsburg seized the opportunity of the visit of the Bishop of Montreal to lay the foundation stone of the Stewart Memorial Church to hold a "quiet day" devoted to prayer, exhortation, and meditation.

On the tombstone of the Rev. Dr. Morrison, the renowned Chinese missionary, is the following characteristic epitaph: "I have sinned; I have repented; I have trusted; I have loved; I sleep, I shall rise, and (through the grace of Christ, though unworthy) I shall reign."

The Rev. Willard F. Hardy narrowly escaped a failure to be ordained as pastor of a Congregational Church at Whately, Mass., because, he said, in answer to a question by the Council, that "it is our fault, and not simply our misfortune, that Adam sinned." Several members objected to that doctrine.

Canon Farrar, in a recent sermon on Foreign Missions, said that missions to the heathen had been an unmistakable reflex blessing to ourselves, partly in the indirect and uncontemplated results of science, discovery, and commerce, and far more inestimably by awakening a deeper religious life at home.

The Aurora, Nevada, religious folk are calling out for a minister of some sort. Their newspaper says:—We are sorely in need of a preacher; we don't want any cheap trash. We want a good, muscular Christian, who can catch sinners by the scuff of the neck and draw them bowling up the plane of righteousness, one who would not drink more than he could hold. Such a man will get a smart lay-out here. If he can play the fiddle for the regular weekly dance it will augment his salary somewhat.

The Aberdeen Presbytery has prayed the Provost and magistrates to put down profane and immoral language in the streets. The Provost said he "could concur in everything that was said about the notoriously bad character Aberdeen had in regard to indecent conduct and profane swearing in the streets. He had never heard boys and girls in other towns use such language." One gentleman observed soothingly that "the old were just as bad as the young," and another almost repeated word for word the Lord Provost's dismal indictment of his youthful subjects.

A few home missionaries are needed in England. A dying man in Hampshire, when visited recently by his parish clergyman, was deeply offended at his being called a sinner. "Sinner," he said," I be no sinner. I have been to church every Sunday for twenty-two years and never missed. "And what do you know of the Lord Jesus Christ?" the clergyman asked, and the dying man looked up and answered, "I never heard of the gentleman." "Why," said the minister, "you heard at the end of every prayer 'for Jesus Christ's sake." "Oh," said the man "I heard that, but I never knew what it meant."

DENTAL.—Mr. R. B. Thompson, Dentist, having removed to his new rooms in Masonic Building, Government street, immediately over T. Wilson & Co.'s dry goods store, is now prepared to attend to his patients there. *

Agricultural Items.

Milk will keep sweet for a longer time in glass than in metal or wooden vessels.

Fredericton, N.B., farmers are about to engage in the apple tree nursery business on a large scale.

Winter wheat has been much damaged in large sections of Ontario, as well as in considerable sections of the Western States.

The Russians are the largest consumers of cucumbers of any people, and the variety known as the Early Russian is the earliest variety known. It grows in pairs, is small, but very hardy and productive.

Andre Leroy of Angiers, France, is the largest cultivator of roses in the world. He grows 1,000 varieties of every conceivable kind and shade of color, having obtained many new sorts by hybridizery. A beautiful variety he has named after his daughter Alice Leroy.

The Indians planted their corn when the leaves of the white oak had attained the size of a mouse's ear, which answers to the time of planting by the the farmers of the present day, from the 10th to the 15th of May. About the time of apple blossoms also is a good time to plant.

In growing celery use horse-manure, the stronger kinds being much too rank for the growth and perfection of this favorite esculent. The mode of growing celery has been very much simplified of late since the plants are not grown in a hot-bed as formerly, but the seed is sown in open ground early in May.

Maritime Province papers hope that their farmers are sowing this spring as large a breadth of land with wheat as possible. The lessons taught by the experience of last year in this matter should not be forgotten. The benefit to the Province from a greatly increased wheat crop this year would be great. The indications at present are that breadstuffs this year will command a good price.

Try planting corn in drill rows, three feet apart, dropping the corn so as to have the stalks stand about 12 or 14 inches apart. It is claimed by those who have tried drill culture that the crop is increased nearly one fourth. It will repay one to experiment and perhaps something valuable may come of the trial.

Plant a few seeds of the sunflower near the house and no danger need be apprehended from the miasma arising from cesspools, stagnant water and other offensive matter. Contagious diseases like fevers will rarely affect the inmates of a house when this powerful absorbent of air poisons is grown near by. Besides, the seeds are excellent for poultry, imparting much brilliancy to the plumage since the seeds contain a large quantity of vegetable oil.

Of novelties in field and garden seeds we may mention the Turk's turban tomato, a very early and prolific variety. In grows in clusters of from 5 to 12, has few seeds, is very solid and is one of the best sorts for preserving and decorating. The excelsior water melon grows very large and is of fine flavor. The log of wood musk melon grows to a great length, is early and prolific and of excellent flavor.

As soon as the cattle and sheep get a taste of grass they do not relish dry fodder, but become uneasy and therefore should be "turned out to pasture" just as soon as the grass is large enough to warrant a continuous yield of herbage. About the 10th or 15th of May is soon enough, unless the season opens very early and the grass is very forward. If the range is large and the herd small it may do to pasture them earlier, but not too soon if any amount of dry food is given them in connection with what they get in the field.

The St. John, N. B., *Sun* says:—We hear nothing of early amber cane culture up river this spring nor of the sugar-beet industry. We are not surprised that the sugar-beet business flags. The difficulties in the way are formidable and are better understood than they were even a short time ago. But the prospects of success in the early amber cane culture seem bright in the North-Western States, having a climate not essentially different from the inland sections of our own Province.

The prospect is that in all of the north-western wheat-growing States the crop of winter wheat will be quite as large as that last year. The average is greater, although the average yield per acre may be less. The acreage of spring wheat also is larger than a year ago. So far the outlook is certainly favorable for a second yield of 450,000,000 bushels of wheat in the United States far 1880. During the last three years Europe has not produced a large crop of wheat, but the prospects now are unusually good for a large yield.

No other one vegetable product has been perfected to a greater extent than lettuce. Formerly only a mass of spreading leaves made up the plant, while now the finer young sorts have firm, dense heads like the cabbage, without any bitter flavor, and of a light greenish color and very brittle and tender. As a necessary dish on the breakfast table in early spring it can hardly be superseded; certainly not by the radish, a more pungent but less favored relish. The elder Booth, in a letter to his father, advises the use of lettuce because of the small and harmless amount of opium contained in its leaves.

It takes a smart gardener to grow the peppers to perfection. Whether this is owing to their pungent quality or some unknown process attending the cultivation may be a matter of doubt, but that one frequently fails of securing a good crop even when grown under the most favorable circumstances can hardly be disputed. Like the culture of celery and asparagus there seems to be more than ordinary uncertainty attending their growth. The French gardeners cultivate a variety known as the Grossum bearing very large fruit but of irregular shapes; one of the earliest sorts is the Sweet Spanish, a very large and early sort.

Much fine poetry and sentiment has been written about the garden, but whether the inspiration came from the practical experience in tending the same is a matter of grave doubt. Warner, in his exceedingly racy and readable work "My summer in a Garden," writes of his experience in cultivating many of our savoury vegetables. Sir Isaac Newton was smoking a pipe in his garden when the apple fell, and Dr. Young gave to the world one of the neatest specimens of impromptu verse found in English literature. The late Edwin Forrest, the eminent tragedian, attired in a linen coat and broad-brimmed hat loved to cultivate flowers in his extensive grounds.

THE surveying for the St. Gothard tunnel was so nicely done that although the tunnel is nine and a quarter miles long the two galleries were bored with such precision that they met with a difference of only four inches in a level and a lateral deviation of less than eight inches.

A BYLAW
FOR RAISING A MUNICIPAL REVENUE ON REAL AND PERSONAL PROPERTY IN THE YEAR 1880.

1. Be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:—

2. There shall be raised, levied and collected in the year 1880 upon all real and personal property mentioned in the assessment roll in force in the City an equal rate of eight-tenths of one per cent. on the assessed value thereof as appears by the said roll.

3. The aforesaid taxes shall be due and payable by the person or persons liable for the same to the Collector for the Municipal Council at his office in the City Council Chambers, Victoria, on the fifteenth day of July, in the year 1880.

4. The Victoria Revenue Bylaw, 1879, so far as the same relates to the imposition of a tax or rate of eight-tenths of one per cent. in the year 1880 upon the assessed value of the real and personal property mentioned in the assessment roll for the time being in force is hereby repealed providing always that all payments of the said rate for the year 1880 already made by any person or persons shall be dealt with in the same manner and be as valid in all respects as if the same had been made after the passing of this Bylaw and under the provisions thereof.

5. The special rate imposed by the Water Works Debenture and Revenue Bylaw, 1877, and by the Bylaw to authorize the raising of twenty thousand dollars, 1878, shall continue to be raised, levied and collected in addition to all rates and taxes imposed under this Bylaw and shall be applied to the purposes specified in the said Bylaws respectively.

6. The annual tax authorized to be assessed, levied and collected by the Victoria Road Tax Bylaw, 1877, as amended by the Victoria Road Tax Amendment Bylaw, 1877, shall continue to be assessed, levied and collected in addition to the rates and taxes imposed by this Bylaw and shall form part of the general Municipal Revenue.

7. Clause 10 "The Victoria Revenue Bylaw, 1879," is hereby amended by striking out the word "three" immediately before the word "calendar" in the last line thereof and inserting in lieu thereof the word "one."

8. Schedule A of "The Victoria Revenue Bylaw, 1879," is hereby amended by inserting therein after the words "Every proprietor or manager of any theatre within the City limits for a single entertainment $5" the following words "and for a week $15," and by inserting therein after the words "and for the minor exhibitions for single entertainments $2 50" the following words "and for a week $7 50." And by striking out the figures $10 after the words "every commercial traveller" and inserting in lieu thereof the figures $20.

9. The Victoria Revenue Bylaw, 1879, as amended by the Victoria Amendment Revenue Bylaw, 1879, and by this Bylaw shall continue in force and all licenses and taxes imposed thereby shall continue to be collected thereunder.

10. This Bylaw may be cited as the Revenue Bylaw, 1880.

Passed the Municipal Council June the 29th, A.D. 1880.

WAR AMONG THE SEALS.

A GREAT AND PROFITABLE HAUL.

A letter from Hesquiaht, on the West Coast of this island, states that at that station alone 900 fur seals have been bought. The few Indians settled there have made more than $5000 in two months. Some made as high as $120 in one day apiece; many from $30 to $80 each. The yield is as good as that of a rich gold "find," if it would but last. In all, it is estimated that the West Coast Indians must have received $30,000 in hard cash in two months' time. Since the latter end of May the weather on the coast has been stormy.

A Coup D'Etat.

The latest *on dit* is to the effect that the local government contemplate a step which will be attended with consequences of great gravity and which will agitate the province if not the Dominion from centre to circumference. Matters have assumed a very threatening shape and a mine may be sprung at any moment. We may add that the threatened movement has no reference to the relations of the province with the Dominion, which are also in an unsatisfactory state; but has reference entirely to local affairs.

ROBBERY.—Two ladies, Mrs. Hammond and Miss Reid, recent arrivals from England, who had taken passage on board the steamer Enterprise for New Westminster, were robbed on Thursday night of the sum of $300. It appears that they engaged a state-room and deposited therein a valise containing two well-filled purses. After retiring to rest they heard a strange rustling which immediately convinced them that an intruder had gained admission to their room. Their suspicions being aroused they examined the valise and discovered that one of the purses which had contained $300 in Quebec bank bills was missing. The police were communicated with and Officer Quain was detailed to proceed to New Westminster to gather information concerning the robbery At 7 o'clock on Friday evening the officer dropped into a store and saw a Harrison river Indian named Jimmy passing a $10 bill issued from the bank of Quebec. The officer regarded the circumstance as a clue to the robbery, and after cross-questioning the Indian as to his possession of the note took him into custody, his explanation that he had won it in a boat-race at Burrard Inlet being deemed unsatisfactory. Although he was found in possession of the note, he is not believed to be the actual robber, suspicion resting on Charley, an Indian employed on board the steamer, who has suddenly disappeared.

THE CALEDONIAN PICNIC.—The St. Andrew's and Caledonian Society will hold their seventeenth annual gathering at their picturesque grounds situate on Cook street to-morrow. The event promises to be eminently successful, for not only is there every prospect of delightful weather, but the arrangements of the committee of management have been admirably perfected. An excellent programme of athletic sports will be carried out and during the afternoon a grand lottery, with prizes for ladies only, will be drawn, a ticket being presented to each lady as she enters the grounds. The refreshment departments are in good hands: Mr. J. Levy of The Arcade will supply the solids, and Mr. Thos. Chadwick of the International Hotel the liquids. Both have an enviable reputation as public caterers. The success of previous picnics held under the auspices of the Caledonian Society may be taken as a sure index to a very numerous attendance to-morrow.

SUICIDE.—Several weeks ago we briefly announced the death, under peculiar circumstances, of one John Champoneise at Oyster Bay, near Cowichan. The deceased, who was better known as "Mustang John," was found dead and as some doubt existed as to whether he came to his end by foul means an inquest was held on his body before Hy. Fry, Esq., J. P., coroner for the district. The evidence adduced points plainly to the fact that the unfortunate man committed suicide, having placed a pistol in his mouth, discharged it and blown the top of his head off, the bullet passing clear through the brain. The jury returned a verdict that "deceased had come to his death by his own hand whilst in a state of unsound mind."

"ANOTHER ARGUMENT."—The N. W. *Herald* advances as another argument against a through line the fact that a robbery has taken place on one of the boats. By a pavity of reasoning pockets should be abolished because they are sometimes picked, henroosts should be discontinued because they are sometimes robbed, and newspapers should not be printed because they are sometimes stolen from subscribers' doors. Try, try again, brother.

NOTICE OF REMOVAL.—H. C. Wilson, manufacturer of Tin and Copperware, and dealer in Stoves, Ranges, Hose and Fittings, Tinware and general contractor, has removed to Government street, between Fort and Broughton streets, opposite Mr. Ld. Lowenberg's land office. Water pipes laid. *

FRASER RIVER was at a stand yesterday morning and it was hoped the water had attained its greatest height. The large salmon are running, and Haigh & Co.'s cannery is at work.

New Westminster.

[Herald and Guardian.]

At the school trustee meeting held on Wednesday Mr. Johnston was re-elected. ....John Ball, a young man lately from Canada, died of typhoid fever on Tuesday and was buried with Masonic honors on Wednesday....The steamer George E. Starr arrived yesterday afternoon from Tacoma, with Mr. D. O. Mills and party, including Mr. Mills' son and daughter, Mr. Reid and wife, Mrs. Wisset, Misses Ward and Wood, and Messrs. H. K. Bishop and G. B. Wright. The party stayed here only about half an hour, and went on to Yale on the William Irving, which will run right through, and arrive in Yale early this morning. The party will return in three or four days....The total paid in this city for customs duties, during the month of June, was $10,000.... On Tuesday evening, the Right Rev. Bishop Sillitoe, accompanied by Archdeacon Woods and family, gave a pleasant entertainment at the above place. The attendance was large, and highly select; the object in view being chiefly to give members and adherents of the Church an opportunity of a public introduction to his Lordship, and also of hearing his views and observations on matters of such vital importance as the religious, financial, educational, and social polity of Church matters within his diocese. After some pianoforte music by ladies of the congregation, His Lordship came forward, and delivered a terse and eloquent address, adverting to the rise and progress of the Church of England, the pay of her Clergy, the liberality of Societies at home for the propagation of the Gospel in the Colonies, and the necessity of unanimity and co-operation among the laity, in order to secure and more firmly establish the Church's usefulness in these parts. Mrs. Sillitoe, gave an English song, which was rendered with fine feeling and effect—pianoforte accompaniment by the Bishop—and received a well-merited encore. The proceedings throughout were loudly applauded, and concluded with the National Anthem..... The Bishop of New Westminster went down to the North Arm on Wednesday last, on the steamer Princess Louise, Capt. Meyer. He visited at a number of the farm houses in that vicinity and delivered a sermon at the church in the eveniug, returning to this city about midnight; he was everywhere received with a hearty welcome....The Ada, Captain Robinson, left her wharf on Thursday morning last for Hastings mill with a part of about 30 excursionists. She went by the South Arm, but after leaving the river she encountered such a tremendous sea that it was though prudent to return. She returned to this city about 1:30 p. m. The most provoking part of the matter was that she had the New Westminster race gig and crew on board who were expected to distinguish themselves in the race at Hastings mill.

Cricket.

The return match played at Beacon Hill yesterday between Victoria and a team selected from Esquimalt and the Fleet resulted in favor of the latter side by 4 runs on the first innings, the score standing 65 to 61. The Victorians won the toss and elected to send their opponents to the wickets. No stand of any importance was made, with the exception of Commander Ackland's well-played innings of 25, the bowling of Messrs. Bovill and Eberts being particularly destructive. The Victorians, who apparently had an easy victory before them, put together 43 for three wickets; but "tailed" sadly, the aggregate of the innings amounting to only 61, of which Bovill made 26. In the second innings of the Esquimalt team Messrs. Eberts and Bovill succeeded in demolishing eight wickets for 38 runs and had time permitted the Victorians would doubtless have reversed the result of the first innings. The game was witnessed by a large number of spectators, amongst whom were many ladies, and during the afternoon the flagship's band performed an excellent programme of music.

THE CABLE BREAK.—Mr. Carmichael, chief repairer of the Western Union telegraph lines, and party, found the break on the shore end of Sydney Island yesterday and repaired it between 3 and 4 o'clock p. m. The southern line worked through last evening, and we obtained a few important dispatches which will be found in the usual column. Mr. Carmichael is deserving of much credit for his promptitude in finding and repairing the break.

MATSQUI DYKE.—A gentleman from Hope informs us that the dyke at Matsqui has thus far proved efficient in breasting back the flood and that the land within the dyke is dry and cultivable, while parts of Chilliwhack and Sumas are under water. Should the water have reached its highest stage the entire success of the great enterprise will have been assured and a handsome and well deserved profit awaits the projectors.

JUSTICES OF THE PEACE.—Albert H. Markham, Esq., captain of H. M. S. Triumph, has been placed on the commission of the peace for the electoral district of Esquimalt; Augustus W. Lundbom, Esq., of Nicola Valley, and John G. Wirth, Esq., of Hope, have been placed on the commission of the peace for the electoral district of Yale.

SAANICH PICNIC.—The farmers' picnic at Saanich was a delightful affair. The attendance was very large, many visitors from Victoria being present. There were dancing and athletic games, a bountiful supply of good things and an overflow of good nature and cordial feeling.

DR SCOTT, of San Francisco, who has passed several days very pleasantly in Victoria, will leave for Yale to-morrow morning, returning on Thursday. He will sail for San Francisco by the steamer of Saturday.

TEACHERS' EXAMINATION.—The examination of teachers will commence at New Westminster and Victoria at 1 o'clock p.m. to-morrow.

POLICE COURT.—At this Court yesterday George Hughes, an old offender, was convicted of vagrancy and remanded for sentence for a week.

IN the race between the Rocket and Pelican boats' crews at Esquimalt the Rockets won by a minute. Another race will come off on Saturday next.

THE contract for building the telegraph barge has been awarded to the lowest tenderers—Messrs. Warner, Simpson and Smith.

H.M.S. PELICAN will sail for Honolulu and Peru immediately after the arrival at this port of the San Francisco steamer.

FOR BARGAINS in gent's clothing and furnishing goods call on S. H. GLOVER, Bossi's Building, Johnson street. *

Pay your Taxes.

Provincial taxes are due and payable at the Treasury, James Bay, on or before the 30th day of June inst. Parties should pay on or before that date and save the additional charge imposed in cases of default. *

THE provisions of the Canada Pacific Railway Act are to be enforced and no more liquor licenses will be granted on the line from Yale to Savona.

THE contract for the construction of the Tigor engine house has been awarded to Mr. J. Huntington.

A Canadian Goose.

In 1838 a rebellion broke out in Canada, and two battalions of the Coldstream Guards were sent thither to assist in quelling it. Both corps occupied the citadel of Quebec, and in their turn supplied the guards that were ordered to be mounted in different parts of the town and neighborhood. Near one of these guards was a farmyard which had suffered much from the ravages of foxes—animals that were at that period a great pest to the colonists; and as the farm in question had been suspected of being the meeting-place of the rebels, a chain of sentries was placed around it. One day the sentry whose duty it was to watch the farm entrance had his attention attracted by an unusual noise, and on looking towards the spot whence it proceeded he beheld a fine goose fleeing towards him closely pursued by a fox. His first impulse was to have a shot at the latter; but this would have alarmed the guard and brought condign punishment on himself for giving a false alarm. He He was compelled, therefore, to remain a silent spectator of the scene, while every step brought the reynard nearer to his prey. In the height of its despair the poor bird ran its head and neck between the legs of the soldier in its frantic endeavor to reach the refuge which the sentry-box could afford, and at the same moment the wily fox made a desperate grab at the goose, but too late, for ere he could get a feather between his teeth the ready bayonet of the sentinel had passed through his body. The poor goose, by way of showing its gratitude to its preserver, rubbed its head against his legs, and made other equally curious demonstrations of joy; nor could it ever be prevailed upon to quit the post, but walk up and down day after day with each successive sentry that was placed there until the battalion left Canada, when the goose was brought away with it as a regimental pet to England. The most remarkable thing in connection with the story is that the goose in turn actually saved its preserver's life. Whether the former knew that the sentry was the same man or not must, of course, forever remain a problem; but it so happened that he was on that particular post again about two months afterwards, when a desperate attempt was made to surprise and kill the unwary sentinel. It was winter time, and although it was a bright, moonlight night, the moon was hidden ever and anon by the scudding clouds which seem to presage an approaching storm. In these moments of darkness a sharp observer might have noticed the shadows of several men who, unobserved by the somewhat drowsy sentinental, were endeavoring stealthily to approach the post where he stood. Suddenly, he heard, or thought he heard, a strange rustling sound, and flung his musket to his shoulder, he shouted loudly: "Who goes there?" Not a sound, save the echo of his own voice in the distance, and the sighing of the winter wind among the branches of the trees which stood in the deserted farm-yard, responded to the challenge. Several minutes elapsed, during which the soldier marched up and down on his lonely beat followed by the devoted goose, until, deeming his alarm unwarranted, he again "stood at ease" before the sentry-box. This was the enemy's opportunity, and the rebels were not long in endeavoring to profit by it. Closer and closer they stole up towards the post, the thick snow which lay on the ground completely deadening the sound of their footsteps. But just as two of their number, one on each side of the sentry-box, were preparing with uplifted knife to spring upon the unsuspecting man, the bird made a grand effort, rose suddenly on its wings, and sweeping round the sentry-box with tremendous force, flapped its wings right in the faces of the would-be-assassins. They were astounded, and rushed blindly forward; but the sentry, fully aroused to his danger, bayonetted one and shot at the other as he was running away. Meanwhile the other conspirators approached to the assistance of their colleagues; but the bird repeated its tactics, and enabled the sentry to keep them at bay until the guard—whom the firing of his musket had alarmed—came upon the scene and made them flee for their lives.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

MONTREAL, July 1—The direct damage caused by the Lachine Canal accident is about $500,000. The indirect damage will likely exceed a million dollars.

FRANCE.

PARIS, July 1.—Several Jesuit establishments are taking proceedings against the commissioners of police for violation of domicile and infringement of personal liberty.

PARIS, July 2.—M. Constans, Minister of the Interior and Worship, has received a letter threatening him with assassination in the name of the sacred heart.

SOUTH AMERICA.

PARIS, July 1 — Intelligence is received from Buenos Ayres that a treaty of peace has been signed. LeJedos has withdrawn as a candidate for the presidency. The provincial forces have laid down their arms in Buenos Ayres.

PANAMA, June 22.—Arica was attacked by a Chilian force 6,000 strong about the 4th or 5th inst. Before the fight began the Chilian commander summoned the Peruvian garrison to surrender, but received for a reply—"We will resist until our last cartridge is exhausted." The demand was renewed on the following day with the observation that Gen. Bagnendano, in deference to the energetic defense of the city and with a desire to avoid useless shedding of blood, begged the Peruvian officers to accept conditions. The reply was the same as before. On the 8th all communication between Arica and other points in Peru was cut off and it was believed in Lima that Arica had fallen. The Kango Copac, it was understood, would be blown up before allowing her to fall into the hands of the enemy.

ITALY.

ROME, July 1.—French religious orders affected by the anti-Jesuit decrees have telegraphed the Vatican their intention to submit to the law. This probably means that the orders are not yet expelled. The Pope has decided to accept Prussia's church law. He intends at the next consistory to nominate bishops to fill the vacant sees of Dublin and Abercorn.

AUSTRIA.

VIENNA, July 1.—News has been received here that a force of 5000 Albanians is marching into the northern portian of the ceded district.

MADRID, July 1.—Subcriptions to the Cuban loan were opened to-day in Madrid and Barcelona and have been so liberal that the loan is already twice covered.

ENGLAND.

LONDON, July 1—The quarterly returns just published shows that the gross revenue of the United Kingdom for the fiscal year ending June 30th, 1880, was £81,962,063, against £83,220,327 last year; and for the last quarter of the present year £19,619,058, against £18,922,050 for the same period of the previous year.

In the case of Burnand *vs.* Rhodocomachi, in the Court of Common Pleas, Lord Coleridge decided that the defendant, a merchant, who had obtained the net sum of £2804 as compensation for tobacco destroyed by the Alabama, must hand the amount to the plaintiff, an underwriter with whom the tobacco had been insured, and who had paid upon it as a total loss. Lord Coleridge said that the defendant being possessed of the money to which, according to the principles of English law, the plaintiff was justly entitled an English court must give it to the plaintiff despite the act of Congress of the United States excluding the claims of underwriters.

Scientific Jottings.

German manufacturers have found another use for paper. They make stoves of that material, in which the fire blazes cheerfully without the slightest injury to the paper enclosing it.

Attention has been called to the existence of large apiaries in a crowded quarter of Paris. From sugar refineries in the vicinity the bees secure an abundant supply of sweets, making the hives a profitable investment to their owners.

Scientists have of late had a growing conviction that the development of parasites upon the phylloxera will prove the most effective plan of destroying that and similar insect pests. A parasite of the phylloxera has now appeared in Sicily, and its effect will be watched with interest.

A correspondent of a Tasmanian journal records an instance of the self-poisoning of a snake. The reptile being pinned to the ground by a forked stick instantly buried its fangs in its own body. Its coils around the stick quickly relaxed, and in less than three minutes the snake was dead from the effects of its own venom.

The present centre of interest to English geologists is a newly-discovered fossil forest in an Oldham quarry. About a dozen trees have been found, some of them over two feet in diameter. Near their roots are numerous impressions of ferns and other plants. It is considered somewhat remarkable that, although the trees belong to the middle-coal period, no coal has been found near them.

An old millstone, five and a half feet in diameter and seven inches thick with a central hole eleven inches in diameter, was left in an English orchard many years ago. In 1812 a filbert tree sprouted from the earth at the bottom of the hole, and gradually increased in size from year to year until, in 1868, it was found that the tree had completely filled the hole, and actually lifted the stone from the ground, wearing it as a girdle about its trunk.

The moon was once a region of intense activity, as is clearly shown by the vast volcanic craters covering its surface, but it has long been believed that all changes in its form due to cooling from a molten mass ceased ages ago, leaving our satellite a cold, dead world. Recent observations, however, have shown a great black crater, over three miles in diameter, which was never seen prior to 1879. As many very minute features in the same vicinity were mapped by careful observers before that time, it can hardly be supposed that the existence of so large an could have escaped notice. The conclusion is, therefore, drawn that the crater was formed during the year 1876 or 1877. This would seem to indicate that the moon's internal fires are not yet completely extinguished, and it is possible that some day we may witness the interesting obstacle of an active lunar volcano.

A Boston Zulu.

Of course a newspaper man is expected to do anything, therefore it was all right for two fellows, who had made a bet as to whether two men, who claimed to be Zulus, really were such or not, to come to us to have the thing decided. They wanted us to see the savages and address them in their alleged native tongue, to see if they could comprehend. Of course we admitted that we could talk Zulu, though we strenuously denied being a returned missionary, believing, as we do, that the cannibalistic savages do not permit such a thing to exist, and forthwith proceeded to visit the Zulus. We at once noted that they were uncivilized, as they wore no sleeves, and, therefore, couldn't do anything at poker. We then proceeded to address them in their native tongue. "Be jabers," said we. "Arrah," said they. "Och hone!" said we. "Tare an' ouns!" said they. "Mavourneen acushla!" we cried. "Bally kish marnock!" they yelled. By this time an admiring crowd had assembled and listened to our pleasant little chat, which continued as follows: "Arrah na pogue." "Faugh a ballagh." "Bhe dha husth." "Tare an' ages." "O magorrah." "Wirrasthrue!" "Och na coppeleon?" "Stillaleen musha begorra!" Then, being thoroughly exhausted, we retired to obtain a lemonade arranged to be taken as the Chinese take their food—with two sticks. And pretty soon the Zulus' interpreter came to us and said it was only third time the poor fellows had had a chance to speak their native tongue since they had came to this country and they felt a heap better for it. And then the fellow who had bet they were not the real Zulus paid his wager and went away fearfully ashamed and the crowd fell back in respectful awe to let us pass on.—*Boston Post.*

The Chinese Army.

Numerically of considerable strength the Chinese army has at present but little fighting value. The Chinese soldier is naturally brave, and the men recruited in the northern districts of the empire are full of vigor and energy; but the troops are practically totally uninstructed in military duties. That this should be the case is probably mainly owing to the inferiority of the Chinese officers. "They are," says a French writer, "below all criticism;" and that they are so must be ascribed to the low esteem in which the profession of arms is held in China. "You would not," runs a Chinese saying, "take good iron to make into nails, and you would not take a man worth anything to make into a soldier." A man need not be in any way educated to obtain a commission; but on the other hand he must be an athlete. Carrying and throwing heavy weights, the use of the sword and shooting with the bow, both on foot and on horseback, are the subjects in which a man desirous of obtaining a commission is examined. Under these circumstances it is no wonder that the Chinese officer is as a rule utterly ignorant of military art, while his men, knowing that he is as ignorant as themselves, have little respect for him.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron, and is the most effectual of all remedies for scrofulous, mercurial or blood disorders. Uniformly successful and certain in its remedial effects, it produces rapid and complete cures of Scrofula Sores, Boils, Humors, Pimples, Eruptions Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and and often cures Liver Complaint, Female Weaknesses and Irregularities, and is a potent renewer of vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick anywhere. For sale by all druggists. 2dw

May God Bless You.

KEOKUK, Iowa, March 15, 1879.

DEAR SIR:—I have been afflicted with kidney trouble, causing a dull, heavy pain, and compelling me to urinate very often, especially at night. But I took one and one-half bottles of your remedy [Safe Kidney and Liver Cure] and am now free of pain in my kidneys. Just before taking it, I went to bed, expecting never to get up again. I want some more of it at once. Please send three bottles C. O. D. I would not be out of it for any money, for it is the only medicine that has done me a particle of good during the last five years, and I verily believe that I got hold of it in answer to prayer. I am now going around to see Albert Patterson, who has the same trouble and is not expected to live, and I am going to share my medicine with him. I believe I could sell one hundred bottles in this town in one month, for I know about forty persons who were afflicted as I was, and one died last week. May God bless you for giving me the relief that I now feel, for it is more than anything else or anybody has ever done.

Yours, under obligation,

4 J. A. M. COLLENS.

ELECTRICITY! THOMAS' ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity cured lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now, its cures are truly wonderful." Wm. McGuire, of Franklyn, writes, "I have sold all the agent left, it acts like a charm—It was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bepford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P. Q., writes, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking
Or if you are given to snuffling,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

DR. J. COLLIS BROWNE'S

(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretionsof the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE.

See Lancet, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1868, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

TESTIMONIAL.

GRANVILLE, BURRARD INLET,
June 18th, 1880.

MRS. CORDINER,
Teacher of Granville Public School.

DEAR MADAM:—WE, THE UNDERSIGNED residents of Granville and Hastings, having heard with much regret of your intention to relinquish your position as public school teacher, take this opportunity of respectfully urging upon you the reconsideration of such determination.

We have admired your assiduous, painstaking devotion to your work—a work at all times sufficiently onerous and trying—the favorable results of which have been repeatedly recognized at the public school examinations, and no less so in the more exact test of actual progress which we have witnessed in the uniform proficiency of your pupils; and furthermore, we also regard very highly the *methods* by which such favorable results have been attained in the wise combination of firm discipline with judicious kindness, which invariably secures success.

Therefore we are extremely desirous that you should continue to occupy your present position as teacher of Granville public school, and so carry on the good service to the public in general and the parents in particular, which you have so well performed in the past. Praying you to reconsider any determination which you may have made to the contrary, and hoping you may consequently comply with our sincere wishes in this matter,

We remain, yours respectfully,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00

WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Bilious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly

Their action is gentle than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervine is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer.

Bottles of two sizes: prices, 50 cts. and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.
